Prophecy

Following my retirement from teaching, I decided to take a trip around the world and visit my former pupils of the class of 1958.

I thought the quickest way would be to go by helicopter, so I hopped in and headed for Dover.

Upon my arrival I was surprised to see Donald Bell running the grocery store in Dover. His early experience at selling fireworks had helped him decide to become a super-colossal salesman. He told me that the 1958 class had been having reunions every five years at the home of the former Jane Woofter. She now lives in Topeka and is married to an engineer at the DuPont plant. Donald locked the store and we headed for Topeka to see Jane.

After a short visit with Jane, we started for Chicago where we were told Jerry Patterson was residing. I looked in the telephone directory to locate the offices of the Patterson Construction Co.. I then called on Jerry who told me he was building houses for the exclusive section of Chicago. The lowest priced house he had was \$50,000. He had recently sold one of his houses to Frances Sanner who is one of Marshall Field's most famous models. We drove out to see Frances and asked her to accompany us on our trip around the world. She said she had been corresponding with Vickie Cottrill and that we should visit her our next stop. I parked my helicopter in Frances' garage and we rented a plane to Miami.

Vickie owns a resort near Miami. She too was able to join us and was able to supply the address of the Reverend Tom Falley. Tom attended theological seminary and is minister of a large church in New York City. Since it was Sunday we thought we would surprise him and attend his services. Following this we asked him to join us. We went to the airport and as we were being seated we saw the pilot coming across the field. Much to our surprise we discovered it was Louis Atwood. He had lost so much weight we hardly knew him. He was flying the trans-Atlantic run from New York to London twice a week. He said he would arrange some time off and we could attend the World's Fair being held in London this year.

That sounded exciting so we flew to London with Louis. We didn't know which pavilion to visit first, so we went to the American exhibit. There demonstrating the operation of space ships was Henry Herrick. He told us it was possible to take a trip to the Moon in the ship he was demonstrating and that he would be glad to take us if we had time. Since we didn't have much time we thought he should come with us instead. He arranged for a few days leave and we continued on our way.

After sightseeing stops in several European countries we continued on to the Hawaiian Islands. We discovered David Holmes running a restaurant there specializing in sea foods. He treated us to a wonderful dinner. He said Mrs. Eitzen had recently been over and that she was now living in California and teaching Music at the University of Southern California.

We all got on the plane and headed for the U.S.. We had a short visit with Mrs. Eitzen and her six little boys all of whom sing in perfect harmony. We were very tired so we all said good-bye at Mrs. Eitzen's and headed for home. The next reunion was to be at Jane's home in five years.

Class Will

We, the 1958 graduates of Dover Grade School, town of Dover, county of Shawnee, state of Kansas and United States of America, located in the Western Hemisphere of the universe, being of sound mind, make this our last will and testament.

We leave old Dover Grade School, which has so faithfully served us for the past six years, to the board. To the faculty, we leave many gray hairs which we have caused them. To Harley, we leave all the dirt, dust and disorder.

We, the members of the Eighth Grade Class, leave the following:

I, Jane Woofter, leave my brown eyes to Bobby Blair and my ability to play the flute to Roger Beach.

I, Vickie Cottrill, leave my cheerleading to Beverly Atwood and my history book to Mr. Enochs.

I, Frances Sanner, leave my ability to play basketball to Margaret Atwood and my reading book to Mr. Enochs.

I, Tom Falley, leave my height to Gerald Martin and my ability to play basketball to Tony Viergever.

I, Jerry Patterson, leave my freckles to Mary Beth Mitchell and my secretary's job to Eugene Corkill.

I, Don Bell, leave my position as class president to Allen Moran and my ability in spelling to Bobby Blair.

I, Henry Herrick, leave my strength and laughing nature to Eugene Corkill.

I, David Holmes, leave my quietness to Billy Dagg and my pitching to Melvin Herrick.

I, Louis Atwood, leave my disposition to Delbert Kahler and my muscular build to Gerald Martin.
